Housekeepers

The Government Chemists, after having analyzed all the principal brands of baking powder in the market, in their reports placed the "Royal" at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Avoid all baking powders sold with a gift or prize, or at a lower price than the Royal, as they invariably contain alum, lime or sulphuric acid, and render the food unwholesome.
